COALITION POUR LA DIGNITÉ DES ÂÎNÉS
LAUNCH OF THE INNOV'ÂÎNÉS PROJECT

Recognizing innovative initiatives to improve seniors' well-being!

Our entire society stands to gain from giving seniors the means to contribute fully to civic and social life. Following its Rendez-vous national sur le maintien à domicile on May 8, 2024, the Coalition pour la dignité des aînés, of which AREF is a member through the AAR (Alliance des Associations de Retraités), recently launched a vast initiative: Innov'Âînés. This action intends to serve as a cross-sector showcase to give due recognition to innovative projects that help improve the living conditions of seniors and their loved ones, in their communities.

Do you know of any projects that are making a difference for seniors?

Innovative initiatives that benefit seniors deserve to be highlighted. That way, they can be replicated in different regions or even adopted across the province of Quebec. To take things a step further, the Coalition pour la dignité des aînés is calling on your local knowledge: let us know about innovative initiatives that contribute to the well-being of seniors in your region!

To share with us such an initiative, visit: <https://innovaines.quebec/#partager>

Your contribution is the first step in Innov'Aînés, the latest project of the Coalition pour la dignité des aînés.

* You do not have to be involved in a project to share it. Our goal is simple: to find out as much as possible about existing initiatives that are making a difference for seniors in their communities!
